

# The Basic Tune-Up Parts Set for AR Chassis—A great first step in upgrading the MA Chassis

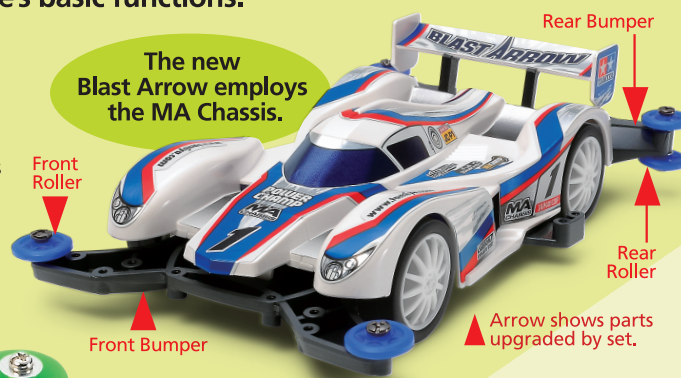

**FOR NEW DRIVERS!**

Are you a new driver looking to power up your Mini 4WD machine? Then the Basic Tune-Up Parts Set for AR Chassis is for you! Use this set as a base upon which to upgrade your machine's basic functions.

## Basic Tune-Up Parts Set for AR Chassis (Item 15450)

The set contains a variety of grade-up parts and is also compatible with MS, MA, VS and Super XX Chassis machines.

The new Blast Arrow employs the MA Chassis.

Arrow shows parts upgraded by set.

## How does it look on the machine?

Take care to install everything properly, and you'll have an improved machine. With tough front and rear sections, it'll be sure to last a lot of races!

Basic Tune-Up Parts

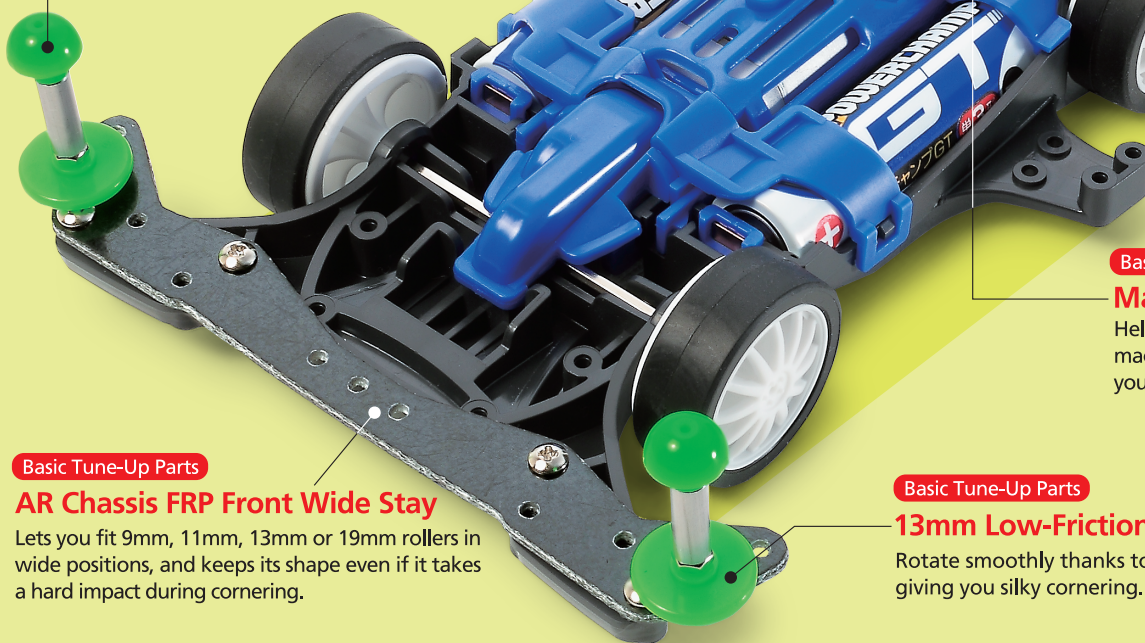

### Stabilizer Ball Cap

When cornering, this handy stabilizer pole touches the fence to help prevent your machine from flipping.

### Power Champ GT Batteries (Item 55113)

High-powered, long-lasting and shock-resistant R6/AA/UM3 alkaline batteries great for Mini 4WD racing.  
※Not included in Item 15450

Basic Tune-Up Parts

### AR Chassis FRP Front Wide Stay

Lets you fit 9mm, 11mm, 13mm or 19mm rollers in wide positions, and keeps its shape even if it takes a hard impact during cornering.

Basic Tune-Up Parts

### AR Chassis FRP Rear Wide Stay

The lightweight and tough FRP plate's wider roller attachment positions help improve your cornering!

Basic Tune-Up Parts

### Mass Damper

Helps to absorb bounces when your machine lands after a jump, allowing you to pick up vital speed!

Basic Tune-Up Parts

### 13mm Low-Friction Plastic Rollers

Rotate smoothly thanks to the special material, giving you silky cornering.

## For those who want to go even faster...

Upgrading the motor and using metal bearings give your machine even greater speed!

### Atomic-Tuned Motor PRO (Item 15351)

Balances power and speed. It's suited to a range of tracks!

※Pinion gears included.

### Hex Hole Ball Bearing Set (4pcs.) (Item 15287)

Lower friction loss to use your motor's power better. And that means more speed!
